

In an effort to better the environment and minimize the impact of increasing expenses, the village is going paperless. This means the increased cost of billing will not be passed on to our residents who have their bills & receipts emailed to them. In 2024 the mail out cost totalled \$4885.22 this includes paper, ink, stamps, and envelopes. In anticipation of rising costs and the newly implemented 25% increase from Canada Post a surcharge of \$3.25 monthly will be added to the utility bills still being mailed. This will take effect. June 1st, 2025.

Changes to building permit process:

Provincial Legislation requires municipalities to regulate building construction. Whenever you are planning to construct, place, alter, repair, renovate, demolish, remove, add or change any building or residence within the Village of Torquay, you will require a Development Permit and may also require a Building Permit.

Step 1

Fill out development application for council to approve.

Step 2

Once approved, fill out required building permit applications for the building inspectors (PBI) to review. PBI will notify owner of any required inspections.

Step 3

Obtain permit from the Village Office.

Note: All inspections must be booked by the owner through PBI.

HAPPY EASTER
